Agni is the most important, the most universal of the Vedic gods. The Rig Veda begins with a hymn to Agni. According to tradition, the japa or conscious repetition of this hymn reveals the knowledge Agni stands for.

The physical flame of Agni gives light all through the night amidst darkness and impels human beings to study or work. Similarly, the Divine Power of Agni is residing in every human being and pushing him towards progress.. Agni is the Divine Power or Will united with wisdom.

Agni is the mental force, will power, necessary for all action. it is Agni who makes the Divine knowledge of the Sun accessible to human beings.

Join us for this 3 class course to learn the first hymn in the Rig Veda dedicated to Agni. This hymn can be cultivated to be a beautiful daily practice, developing the power of the will within us, allowing us to do our work with supreme aspiration and keeping us untiringly on the path of yoga.
